AVANTGARDE

Collection

Inspired by “Avant-garde” art movement, we have developed an artistic and truly avant-garde scenery characterized by the aesthetic innovation and elegance that defines a period of great effervescence and innovation.

In this collection, we celebrate and praise an expression of inherent meaning and comfort, through arts and crafts with the bold use of colour and expressive motifs.

Avant-garde today, besides its complex intellectual ideas, challenges the current cultural values through form and function.

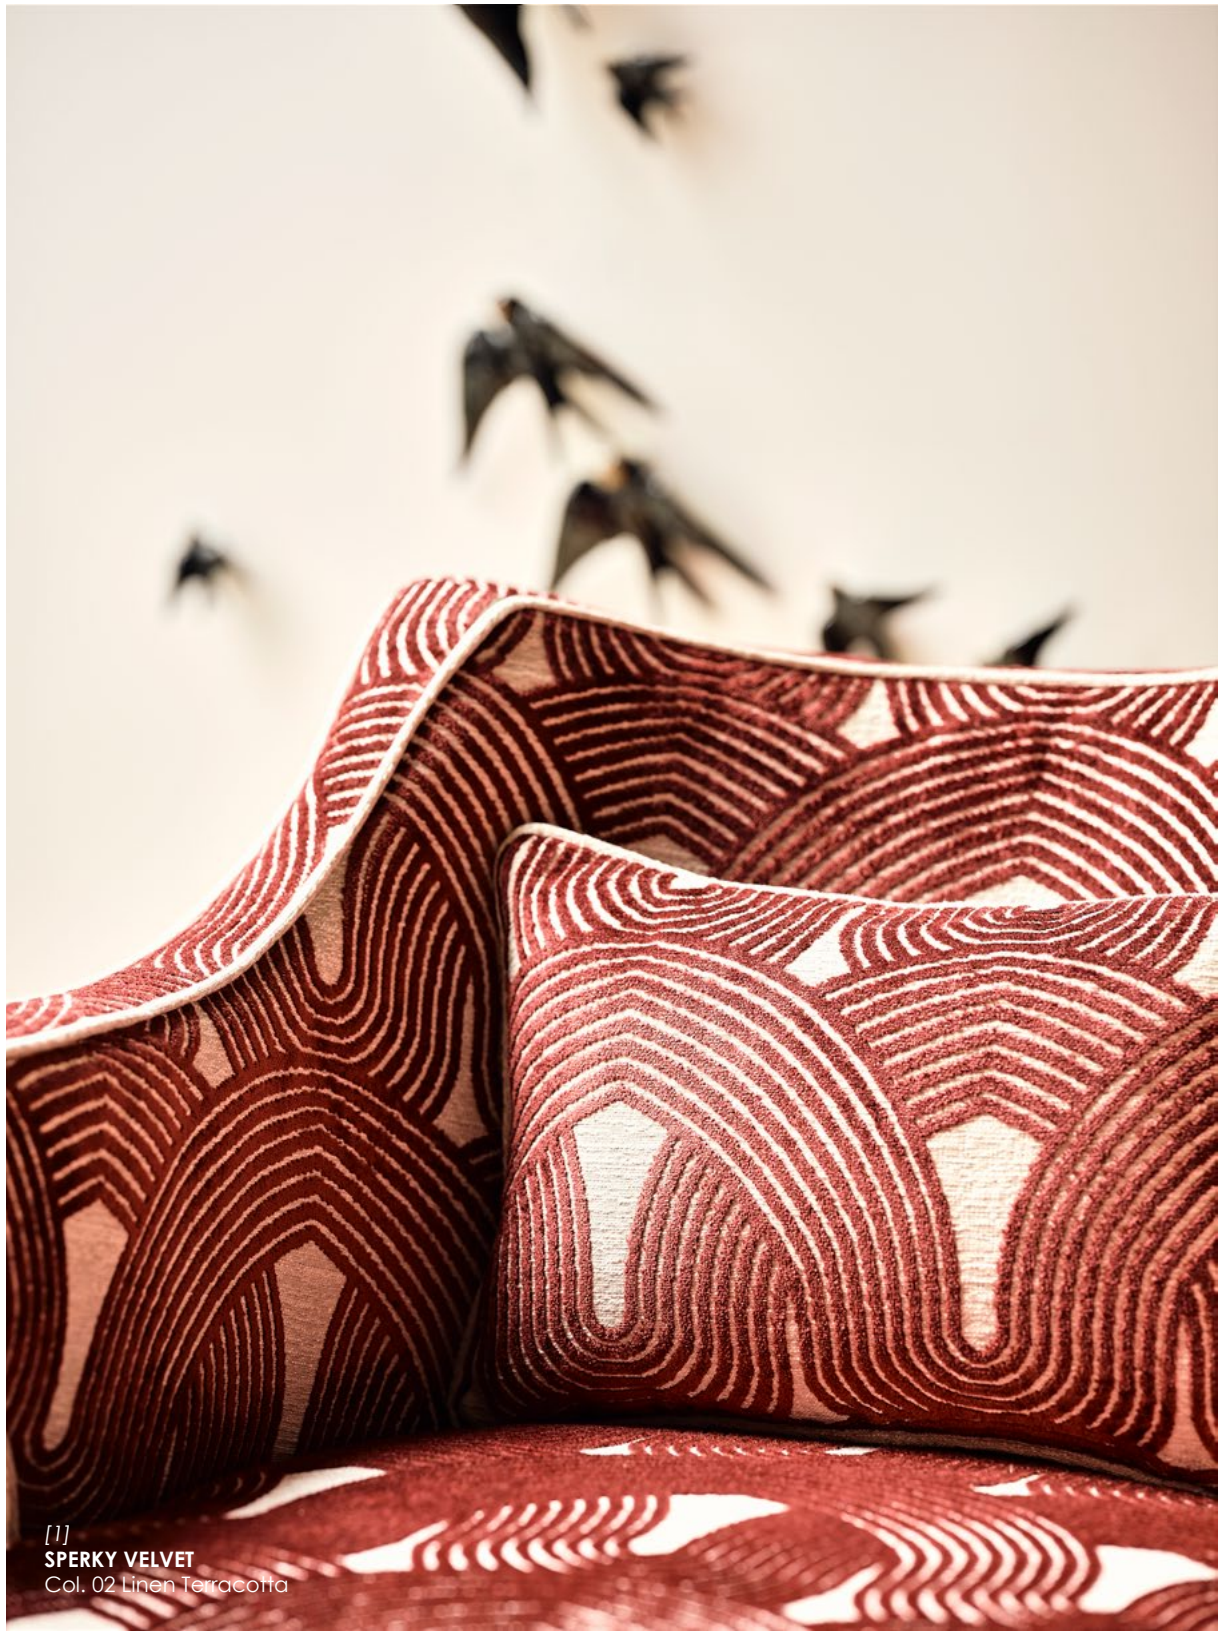

Vanguardism is no longer just a cultural phenomenon is beyond individual instances of art and manifests itself in a non-conformist lifestyle and stimulating what human beings crave for:

a raw expression of Beauty and Sustainability.
